Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The amendment filed 3/11/04 has been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-38, 49-51, 53-66 are rejected under 35 U.S.C. 102(b) as being anticipated by Jayaraman (5,755,781). Jayaraman disclose a stent including first, second and third sections having pattern and structure configurations as claimed (figures 8-9). Note: The introductory statement of intended use and all other functional statements have been carefully considered but are deemed not to impose any structural limitations on the claims distinguishable over the Jayaraman's stent which is capable of being used as claimed if one desires to do so.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 39-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jayaraman '781. Jayaraman disclose all the limitations of the claims except for failing

to disclose the materials of the stent as claimed. The materials for forming the stent as claimed are well known in the art. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to make the Jayaraman's stent from the materials as claimed in order to provide a stent having biocompatible and expansible characteristic as desired.

6. Claims 41-48 and 52 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jayaraman. Jayaraman disclose all the limitations of the claims except failing to disclose a cover and means for attaching the cover to the stent and drug coated on the stent as claimed. The cover, means for attaching the cover to the stent and drug coated on the stent as claimed are well known in the art. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to employ the stent of Jayaraman with cover and drug as claimed in order to provide a better surface for tissue ingrowth and prevent blood clots.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to (Jackie) Tan-Uyen T. Ho whose telephone number is (703) 306-3421. The examiner can normally be reached on MULTIFLEX Mon. to Sat..
